Hi Jessica:

Thank you for your email. Marcel Howard has been assigned to these two actions (label and CSF). I have cc'd him on this email. Marcel literally just got the packages this morning so I'm sure he has not had the chance to look at them yet. I will ask that he contact you should he have any questions.

Thank you,
Heather

Hello Heather,

I am following up with you on some outstanding actions on the registration listed above. I submitted a label amendment in February 2018 and a CSF amendment in May 2018. They are both still pending. I was working with Fatima Sow and sent her some additional information and answered some questions when she asked, but hadn't heard back from her in several months. Hope informed me she was no longer with the Agency and would be managing the submissions. She now says she is no longer working in that position and you will be managing these actions. Please let me know what, if anything, you need from me to move these forward.

Thank you,
Jessica McLaughlin

Good morning,

I have moved positions temporarily. I have left the action with Heather Garvie who is currently Acting for me while I am on detail. She will need to assign this to someone.

Hope Johnson
Acting Branch Chief
Science Information & Analysis Branch (SIAB)
Biological and Economic Analysis Division (BEAD)

Hello Hope,

Any update on my two outstanding actions for EPA Reg. No. 45728-30? I appreciate any feedback on timing or status.

Thanks,
Jessica

Hello Hope,

I have attached the correspondence I had with her throughout this year. I look forward to hearing from you.

Thanks,
Jessica

Fatima, who was assigned to these actions, has left the Agency. I will need to find these actions and determine the status. They are still currently pending in our database. If you have email correspondence between you and Fatima that would help give me background on the history of these actions that would be helpful.

Thank you,

Hope Johnson

Hello,

I am contacting you in regards to two outstanding actions I have on the registration listed above. In February 2018 I submitted a label amendment on this registration. In May 2018 I submitted a CSF amendment on this registration. I had some back and forth with Fatima Sow in early 2019 regarding the CSF amendment. She referenced an EPA decision letter 542660, but I never received this letter. Can I get a copy of this letter? Was the CSF amendment approved? Can you give me an update on my outstanding label amendment? I'd like to get these actions taken care of and hope you can help shed some light on the status.

Thank you,
Jessica McLaughlin
